

# CH37

## Induction Heater

### Your torchless heating solution!

The advantage of using induction technology is that there is no open flame. The High Power CH37 can be used in the same way as a gas torch, but without destroying nearby parts. There are 5 power levels together with the unique regulation and control system to avoid overheating.

Powerful heating tool with flexible on-off switch

User-friendly front panel with five power control levels.

Art. No. 1210103300

- Will heat through rubber or plastic
- Will not damage nearby heat sensitive parts
- Total power control, by the unique regulation- and control system
- No open flame

# Controlled heat without a flame

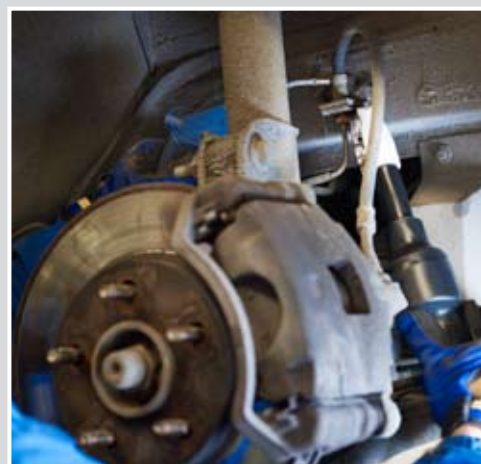

Heat shrinking of steel and aluminum panels during repair

Heat rusted nuts and bolts on suspension, steering and exhaust.

Heats through rubber or plastic.

Does not overheat nearby sensitive parts

Efficiency water cooling system by 20 l water tank.

Angled induction head (standard).

Straight induction head (optional).

## TECHNICAL DATA

Mains supply:	208-240 V 50-60 Hz, 1 ph, 16 A (20 A US)
Degree of protection:	IP21
Working frequency:	18 - 40kHz
Main Supply Power	3,8 kW
Heating Power (Maximum):	1,6 kW
Induction cable:	3 m length
Cooling system:	Water (avkalkat)
Weight:	34 kg
Water tank:	20 l
